Prime Development Opportunity – 7,679 m² of Land with Approved Building Permit

This unique parcel of undeveloped land, measuring approximately 7,679 m², presents an exceptional opportunity for developers and investors. The property currently holds an approved building permit for the construction of 48 residential units, offering a strong foundation for immediate project development.

Importantly, the existing permit is subject to amendment, providing flexibility for a revised concept or alternative development plan, subject to the necessary approvals.

The site consists of multiple parcels and benefits from excellent accessibility, with two access roads: one from the Seru Loraweg and another from the Janwestraat. This dual access enhances the potential for phased development, separate entrances...
